# Enclosures and Technology

With Attention to Detail

### ATB Membranes

ATB diaphragms (Aluminium Titanium Black) in the low- and mid-frequency range

### Wave Surround Technology

Extremely long strokes with precise acceleration and deceleration characteristics

### BC Tweeter

Square-shaped transmission front plate with Black ceramic tweeter system (BC)

### Modern Design

Enclosure with a tapered front and rear design and smooth curves, for uniform sound dispersion

### Multi-layer cabinets

Elaborate enclosure design with reduced natural resonance behavior

### Gold-plated terminals

Gold-plated single-wiring terminals for optimal signal transmission

### High-Quality Design

The Vento 21 is a compact 2-way bass-reflex speaker designed for demanding stereo and home theater applications. The high-quality ATB driver and ceramic tweeter system deliver clear highs, precise mids, and a balanced sense of space. The low-resonance multi-layer cabinet and the backfire bass concept support powerful, controlled sound reproduction. With their elegant design, the Vento 21 speakers blend harmoniously into modern living spaces.

# Variants

Classic elegance

Derived from the Italian word for "wind" the new Vento models combine elegance with powerful sound performance. The flowing curves, the offset base, and the distinctive square shape of the tweeter define their unmistakable design. With an exclusive range of elegant color options and high-quality finishes, the new Vento speakers make a statement in your living space – not only with their sound but also with their appearance.
