

ARRAN

XLR BALANCED STEREO CABLE

DESCRIPTION

- 24k Gold plated copper pin and metal connectors for a better conductivity and contact strength.
- OFC-99,99 % - 4N conductors (0,25 & 0,5mm²) with PE insulation with a better structural integrity.
- Double shielding for perfect insulation against electromagnetic and radiophonic interferences (RFI & EMI): optimal cotton fibre to limit micro-vibrations inner, peripheral insulation in Aluminum strip and thick PVC on the outside.

SPECIFICATIONS

Finish and connectics : *Black pearl fabric braid*
Smooth texture
Connectors : *Metal XLR male & femelle*
Outer diameter : *6,5 mm*
Available Length : *1m - 1,5m - 2m - 3m*
