

Capable of reproducing a wide sound spectrum despite its compact dimensions, the Solstice 3 impresses with its ability to handle all musical genres with ease.

This two-way bookshelf speaker incorporates the key innovations developed for the SOLSTICE range, such as the new barrel-horn tweeter, the mid-woofer driver featuring the latest basket, and a versatile base, combining multiple features.

The Solstice 3 captivates with an open and precise sound, reproducing music with naturalness and fidelity.

Vocals are highly realistic, whilst the bass frequencies perfectly maintain the balance of the spectrum. Capable of combining finesse and energy, it offers a lively and expressive reproduction across all musical genres.

Boasting excellent specifications, the Solstice 3 pushes the boundaries typically associated with a bookshelf speaker. Paired with its dedicated S05 stand, it comes into its own in rooms ranging from 10 to 35 m² and delivers an equally compelling experience in a Hi-Fi setup as it does within an immersive home cinema system.
